FOREST AND RAIN

(Continued from First Page.)

perhaps, in a large degree, must always be so, on our agricultural resources, for our prosperity. All possible care and prudence should be exercised in dealing with out still existing forest lands.

Quite a number of members of the club spoke on the question. They furnished facts that will be of use in working out the problem locally. Mr. G. R. Carter mentioned the utility of fencing of territory from stock as done on the Monsarrat ranch on Hawaii. Cattle had tramped down young trees and reduced forest. The Chief Justice remarked on the great numbers of deer and goats that were ruining forest and that could be put out of the way if Island and foreign sportsmen were invited to shoot them. Mr. Jos. Emerson told how the goat pest on Hawaii had been abated by the wild dogs in a certain district. Dr. Maxwell spoke briefly of data that had been gathered for the planters and of the views of Furnow and other students of the subject. Mr. P. C. Jones told of a plantation in which he was interested and the rainfall figures and effects there. The fall had been growing less each year, but when it was down to 17 inches, as in 1896-7, the cane yield had been greater than ever before. There were a number of other speakers.

Mrs. A. F. Judd supplied the members of the club with a lunch that was greatly enjoyed.

IN CIRCUIT COURT.

February Term Opens With Many Cases On Docket.

The February term of the Circuit Court opened yesterday morning with 108 cases on the calendar. Thus far there are 16 criminal cases, 5 of which are for the Hawaiian jury and 4 of these are for maintaining a lottery. The jury was called at 10 o'clock and was excused until the afternoon session when it was expected that the first criminal case would go on. Meanwhile in the two appeal cases from the District Court of Honolulu, Republic vs. Parker Lewis for assault and battery, and Republic vs. W. Manaoe alias Keolanui for maintaining a lottery, the appeals were withdrawn and the fines paid.

At the opening of the afternoon session it was announced that in the case of the Republic vs. S. Paaluhui, Kalua Alapai and Puou, for maintaining lottery, the last two defendants had withdrawn their appeal and a nolle prosequi entered against Paaluhui. The criminal cases will go on before Judge Stanley this morning. Judge Perry will hear the ejectment suit of Halea vs. Kaaunawa.

Other cases disposed of yesterday were Republic vs. Charley, assault with dangerous weapon, appealed from District Court of Honolulu, fine paid and appeal withdrawn; Republic vs. E. Dunbar, appealed from District Court of Honolulu, no appearance for defendant, bail forfeited. The assumpsit case of Rebecca Stone vs. Ah Foo has been settled out of Court. The suit brought by the Minister of the Interior against the estate of B. P. Bishop in regard of taking land for wharf use has been discontinued, as has also the jury waived case of J. A. Magoon vs. Paa for damages appealed from the District Court of Honolulu. The appeal has been withdrawn in the assumpsit case of A. da Silva vs. Frank Cunningham, and the suit brought by G. H. Holt against Pilipo, first in the District Court and then appealed, for alleged illegal impounding has been settled out of Court. There are 19 divorce cases on the calendar.

F. H. Valentini has been appointed administrator of the estate of Anna Cahill and his bond approved.

The bond of W. L. Wilcox has been approved as administrator of the estate of Kepola.

DISORDERLY.

Orgies Mark the Run of Life In Kamanuawai.

At about midnight last Saturday night, a native living in Kamanuawai, called at the police station and complained of the disturbance that had been going on all day and night in that locality. He referred especially to a long building almost opposite St. Louis College on the Waikiki side of the stream. An officer was sent up to investigate and found there was room for complaint. The people of the vicinity were nearly all in that happy state which minds not whether school keeps or not. Fighting, swearing, drinking and calling each other all the pet names they could muster was the order of the night.

It is only a matter of a little time when Kamanuawai will be as bad as Chinatown and as much shut out from the outside world. The buildings are springing up like toad-stools and as close as these may be found. Vice of all kinds now holds sway.

At one time Kakaako was considered about the worst place of the kind but, since the recent onslaughts of the police, the people of that locality have toned down a bit and the place is really very respectable now. However, the disease has broken out in another locality, and upon the mud recently thrown up by the dredger, high

carnival is held every Saturday night and Sunday morning.

The people who indulge in these midnight frolics seem to feel that they are safe from police interference for there are so many little lanes and places of retreat about the place that in the event of the appearance of an officer of the law, they can easily make tracks for another part of the swipes infected region.

Stores to Let.

In Waverley block, Bethel street, next to Castle & Cooke. Centrally located and with every modern convenience. For particulars apply to Henry Waterhouse & Co., Queen street.

Mr. and Mrs. W. L. Lyle gave a house warming at their new home in Robello Lane, Palama, last evening and had a couple of dozen friends for guests. There was music and refreshments. The visitors included Mr. and Mrs. Roe, parents of Mrs. Lyle.

KING & BETHEL STS.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one **CENTRAL Station**? One generator can furnish power to your **Pump, Centrifugals, Elevators, Plows, Railways and Hoists**; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

THEO HOFFMAN, Manager.
